1.Scope of the release

The objective of this document is to list the changes, modifications, decommissions, bug corrections that are part of this minor release **18.6.0**

The release on our integration platform will take place on **01/04/2021** between **12:00-14:00**

The release on our production platform will take place on **22/04/2021** between **20:00-24:00**

The main changes of this release are:

- **Email address in SMA profil**
 - The email address used by the end user to login with the digital key Email OTP, is the same as the one used in the « My profile » section in SMA.
 - If the user changes his email address on the « My profile » tab, it will automatically be changed for the use of the Email OTP key, and vice-versa.

- **eBox initial consent refusal issue**
 - When a user logs in for the first time on « MyeBox » and refuses to give his consent, he will be automatically logged out (From the « MyeBox » application).

- **New email address for email OTP.**
 - The code sent during the authentication process with the key « Security code sent via email », will be sent from a new email address : login@csam.be (Previous address was no-reply@csam.be)

- **XMA and FAS**
 - Bugfixes
 - Language issue

Concerning the new (ECDSA) eIDs that will be distributed starting end of april, we will keep you informed in a separate communication.

This covers :
